### STUDENT'S TALK

I, Manya Minhas from Grade 6th, strongly believe that Schools are indeed play the greatest role in shaping the future of students that aligns with success. My school is a complete package of rituals and disciplined routines that are an essential for the success in personal and professional life. My school teachers are godsend, as they act like second parents and make the school our second home. The infrastructure of our school is very beautiful along with wellequipped science labs where we are free to conduct innovative experiments that make us productive. We also have all the equipment of sports and the sport teacher always prepares us to be mentally and physically fit. Different kinds of events like seminars, declamation contests, and quiz programs help us for shaping our personality as well as in getting rid of the stage fear. I am extremely elated to be a part of such a majestic school.
