PRINCIPAL'S MESSAGE

Mrs. Smicky Kochhar
Principal

"Jacques Delors has rightly said that education is based on the four pillars: Learning to Be, Learning To Know Each other, Learning to Do & Learning To Live and share together."

" SCHOOL , the abode of learning " influences the all round development of pupils. Education is synonyms with breeding, civilization, coaching , cultivation, culture, development, discipline , training, tutoring and so on. Our curriculum and practices are consistently reviewed to ensure that we are following the most updated best practices, meeting all regulations, and addressing the future needs of our students. our staff consistently follows current trends and after brainstorming over to best plan of action to incorporate those trends, we zero in on the ones that are most appropriate to our classrooms. we explore the possibilities in every individual child, asses their skills and make them capable in pursuit of worthy goals in the service of the nation and humanity. Here comes the role of physical education, sports & games and co-curricular activities . A joyful interactive learning system is followed. wherein each child is encouraged to participate wholeheartedly !

There are only two lasting bequests we can hope to give our children. One of these is roots the other, wings! Roots are offered by our parents and wings are handed down by us at school!

We at The Cambridge International School, Gurdaspur, look forward to a long association with you . Let us join hands in grooming the young minds so that they may walk the path of life successfully!

With best wishes to all.
